**Deconcentration Policy**

## **DECONCENTRATION AND INCOME TARGETING POLICY**

*(Of the Public Housing Admissions and Continued Occupancy Policy)*

Sub-Title A, Section 513 of the Quality Housing and Work Responsibility Act of 1998 (QHWRA), establishes two interrelated requirements for implementation by Public Housing Authorities:

1. Economic Deconcentration of public housing developments; and
2. Income Targeting to assure that families in the "extremely low" income category are proportionately represented in public housing and those pockets of poverty are reduced or eliminated.

In order to implement these new requirements the PHA must promote these provisions as policies and revise their Admission and Continued Occupancy policies and procedures to comply.

Therefore, the Sylacauga Housing Authority, Sylacauga, Alabama (hereinafter referred to as PHA) hereby affirms its commitment to implementation of the two requirements by adopting the following policies:

### **A. Economic Deconcentration:**

Admission and Continued Occupancy Policies are revised to include the PHA's policy of promoting economic deconcentration. Implementation of this program may require the PHA to determine the median income of residents in each development, determine the average income of residents in all developments, compute the Established Income Range (EIR), determine developments outside the EIR, and provide adequate explanations and/or policies as needed to promote economic deconcentration

Implementation of this program will require the PHA to:

1. Determine and compare the relative tenant incomes of each development and the incomes of families in the census tracts in which the developments are located; and
2. Consider what policies, measures or incentives are necessary to bring high-income families into low-income developments (or into developments in low-income census tracts) and low-income families into high-income developments (or into developments in high-income census tracts).

In addition, an assessment of the average family income for each development is necessary. Families will be provided with an explanation of the policy during the application/screening process and/or the occupancy orientation sessions and given opportunities to discuss the options available to them.

The families will also be informed that should they choose not to accept the first unit offered under this system, their refusal will not be cause to drop their name to the bottom of the list.

Implementation may include one or more of the following options:

- Skipping families on the waiting list based on income;
- Establishing preferences for working families;
- Establish preferences for families in job training programs;
- Establish preferences for families in education or training programs;
- Marketing campaign geared toward targeting income groups for specific developments;
- Additional supportive services;
- Additional amenities for all units;
- Flat rents for developments and unit sizes;
- Different tenant rent percentages per development;
- Different tenant rent percentages per bedroom size;
- Saturday and evening office hours;
- Security Deposit waivers;
- Revised transfer policies;
- Site-based waiting lists;
- Mass Media advertising/Public service announcements; and
- Giveaways.

## **B. Income Targeting**

As public housing dwelling units become available for occupancy, responsible PHA employees will offer units to applicants on the waiting list. In accordance with the Quality Housing and Work Responsibility Act of 1998, the PHA encourages occupancy of its developments by a broad range of families with incomes up to eighty percent (80%) of the median income for the jurisdiction in which the PHA operates. Depending on the availability of applicants with proper demographics, at a minimum, 40% of all new admissions to public housing **on an annual basis** may be families with incomes at or below thirty percent (30%)(extremely low-income) of the area median income. The offer of assistance will be made without discrimination because of race, color, religion, sex, national origin, age, handicap or familial status.

In order to implement the income targeting program, the following policy is adopted:

- ▶ The PHA may select, based on date and time of application and preferences, two (2) families in the extremely low-income category and two (2) families from the lower/very low-income category alternately until the forty percent (40%) admission requirement of extremely low-income families is achieved (2 plus 2 policy).
- ▶ After the minimum level is reached, all selections may be made based solely on date, time and preferences. Any applicants passed over as a result of implementing this 2 plus 2 policy will retain their place on the waiting list and will be offered a unit in order of their placement on the waiting list.
- ▶ To the maximum extent possible, the offers will also be made to affect the PHA's policy of economic deconcentration.
- ▶ The PHA reserves the option, at any time, to reduce the targeting requirement for public housing by no more than ten percent (10%), if it increases the target figure for its Section 8 program from the required level of seventy-five percent (75%) of annual new admissions to no more than eighty-five percent (85%) of its annual new admissions. (Optional for PHAs with both Section 8 and Public Housing programs)

3. The PHA has established a Resident Advisory Board or Boards, the membership of which represents the residents assisted by the PHA, consulted with this Resident Advisory Board or Boards in developing the Plan, including any changes or revisions to the policies and programs identified in the Plan before they were implemented, and considered the recommendations of the RAB (24 CFR 903.13).
